

Empower your cardholders to combat fraud: Commercial Cardholder Alerts

With commercial cardholder alerts, cardholders are notified when suspicious activity takes place on their account and given a chance to quickly reply to validate transactions.

Cardholders can enroll to receive notifications via any, or all of the following methods:

SMS text message*

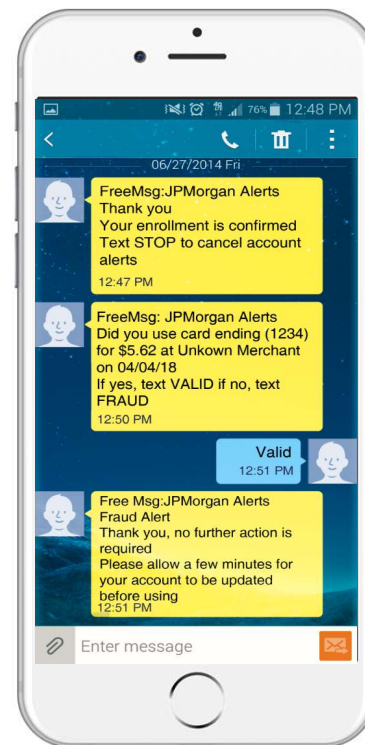

Email

Phone*

Cardholder alerts are one of the **easiest, fastest ways** for cardholders to **confirm fraud** on their accounts

Enrolling is as easy as 1-2-3!

1. Enter your commercial card account number and billing zip code.
2. Add your alert device(s).
3. Enter your contact information.

Tap. Pay. Go. Features for Any Environment

Mobile Wallet

On Apple Pay, Google Pay, Samsung Pay

Cardholders can add their J.P. Morgan Commercial Card to Apple Pay, Google Pay and Samsung Pay to use as a convenient and secure payment method for business purchases—in-store, in-app and online. Credit lines and limits remain the same.

Security

Mobile wallet usage benefits security and protection of card numbers. A merchant never receives the primary account number.

Providing Convenience and Efficiency to Cardholders

Business purchases are quicker and more efficient when using the tap-to-pay features of a mobile wallet.

- 1**
OPEN
your mobile wallet.
- 2**
ADD and
AUTHENTICATE
your card.
- 3**
PAY
choose your commercial card, tap, and go.

Contactless Dual-Interface Cards

With EMV Technology

All physical Commercial Cards contain contactless EMV technology allowing cardholders to tap to pay at capable terminals for a faster purchase experience. Cardholders may also choose to insert their chip.

When this symbol is present at checkout, cardholders can tap their card for fast, easy and secure transactions.
